Engaged in life, engaged for life

A strategic geographical location, research centres, technology hubs, innovative business incubators, plus a centre of industrial excellence in certain segments of the medical sector: Piemonte plays a **prominent role in key areas of the broader health & wellness sector**, ranging from biomedical devices to transplants and regenerative medicine, innovative cardiovascular treatments, in-vitro diagnostics and research into personalised medicine and rare diseases. This makes Piemonte a **very attractive region for both Italian and foreign companies to invest in**, which will certainly gives the region the opportunity to enhance its competitiveness in the sector. The region is featured by a **top public healthcare system endowed with first level know-how** and by a **super performing academic system** headed by the University of Torino, University of Eastern Piemonte and Polytechnic University of Torino.

In Piemonte, **the network of research centres, multinational companies and SMEs, innovation clusters, education and technology transfer** makes it a robust, connected system active in pharmaceuticals, biotechnology, wellness and nutraceuticals, massively supported by converging technologies.

Piemonte ranks high in Europe **as a strategic partner for cooperation, R&D and investments** making the region **a powerful location for scientific and industrial partners and for new businesses to set up operations**.

In terms of **productive strengths**, Piemonte boasts a few companies that set standards of excellence. Accompanying these major players are a large number of small businesses, many of which were recently founded through university-supported incubators and operate in the biomedical field. Finally, a growing number of companies are also incorporating biotechnologies into the production of quality foods and functional foods, which bodes well for synergies with Piemonte's health and wellness firms, on top of the wide range of synergies between the healthcare and ICT sectors in terms of telemedicine, patient monitoring and preventive care. Piemonte is also home to an **important cosmetic sector** that satisfies needs of very different kinds. Piemonte's cosmetic industry is oriented towards **social responsibility and environmental sustainability** and is totally aligned with international market trends. It plays an important role in terms of product innovation concerned with **biological and natural ingredients**, implementing a **new consumer experience** based on **personification** and Made in Italy quality.

HEALTH & WELLNESS
INTEGRATED SUPPLY CHAIN PROJECT

Health & Wellness is the Integrated Supply Chain Project promoted by Regione Piemonte (Regional Government), co-funded by the European Regional Development Fund 2021-2027 and carried out by Piemonte Agency, providing international players a preferential channel to meet and start business with top class agrifood companies based in Piemonte. The Team makes an assessment of buyers' needs and technicians' requirements from all over the world and provides them with:

- top class skills and unique manufacturing know-how
- capable suppliers who can deliver on time high-quality parts and products at competitive prices
- technological, qualified and competitive supply chains sharing commercial objectives, target clients and strategies
- technical working groups where local enterprises and foreign companies work
- together to develop projects aligned to the expectations of their international players.

The project Team's assistance is supply chain focused and completely free of charge for international players. It ascertains the outsourcing needs and arranges b2b meetings according to the requirements with the most suitable partners - in Piemonte or on their premises -, **visits to local companies** to discover the region's health and wellness sectors participation to **international events** and **trade missions** to connect demand and supply. Thanks to new technologies and platforms **virtual meetings** can also be arranged.

For more information on the **health & wellness** sector in Piemonte and its business opportunities, contact the **Project Team**:
